Information about Erkelenz

The drilling equipment pioneer Anton Raky moved the seat of the international drilling company from Strasbourg to Erkelenz at the end of the 19th century, which was the beginning of further industrial settlements. Nowadays world-famous machine and drill producers as well as various nationwide oriented companies of small or middle size constitute the solid and multifaceted industry structure.
Erkelenz' image is completed by various retail and transportation businesses, textile and furniture industry as well as building sectors, service industries, administration and governmental offices.
